

Dear Health Care Committee Members & Bill Sponsors,

As a concerned mother and Oregon resident, I am pleading with you to **oppose HB 3063**.

How this bill would affect my family:

- Both of my boys would no longer be able to attend their schools.
- We would become a one-income home due to having to home school our boys.
- We would be forced to move out of the state of Oregon because we could not afford to live on one income.

This bill would change the course of our LIVES!!!

According to the CDC Vaccine Adverse Event reporting system, there are vaccine reactions!

<https://wonder.cdc.gov/vaers.html>

When there is a chance of reaction, there must be CHOICE!

I stand for INFORMED CONSENT not Mandatory VACCINES!

Please oppose HB 3063.

Thank you,
Charissa Hatten
