

Dear Representatives,

Vaccines are important. But medical decisions must be made in the privacy of a doctor's office, not in the state legislature. Attempting to force medical compliance is deeply disturbing to me. We should not be encouraging fear and hatred among parents. We should be ensuring that everyone is able to make safe and educated decisions about how best to keep their families safe and well.

I urge you to vote no on HB3063.

Thank you,

Stephanie Baum, a concerned Oregonian
