

Dear Representative and Committee,

I am a concerned parent in Bend, Oregon. **Please vote "NO" on HB 3063.**

It is important to my family to maintain a non-medical vaccine exemption. I believe that choosing whether to vaccinate my children is a **fundamental religious right** that should not be infringed upon.

The fact is that most vaccine package inserts state in Section 13 that it "...has not been evaluated for carcinogenic or mutagenic potential, or potential to impair fertility." Top of page six of package

In addition, I personally know families who have experienced negative vaccine reactions.

Please vote "NO" on HB 3063.

Thank you,

Zach Boettner
