

As a 4th generation Veteran and Oregonian I am truly astounded by the attacks against all law abiding gun owners! Penalizing for any strictly forbidden rule the rulers demand. Fortunately we have the supreme law of the land to protect "We The People " from overreaching government. Perhaps this is the reason behind the infringement of our rights. Could it be fearfully motivated law makers want to cramp all these unnecessary laws down our throats w/o a vote of the people because they are scared to death of retaliatory measures being taken against corrupted officials? God help you all if you continue to dismantle the rule of law. Please don't oppress us, we are good hardworking people of conscience.
