

To Chair Monnes-Anderson and Committee Members,

I am writing to request your support for SB 770. I have had the fortune of being a mostly healthy individual, but have chosen to decline raises so I won't earn too much to qualify for OHP. That is ridiculous, but the fear of getting sick without healthcare keeps me from increasing my earning potential.

Please get on the path to a Single Payer health care system, so we can all grow healthy together.

Warmly,

Shannon Douglas
