

I am writing to oppose SB 978

It is a sledgehammer bill to fix the elusive effort to control gun violence, that will only be obeyed by law abiding citizens who are not the problem.

Your goal is to control the 1/2 of one percent of criminally inclined people & the mentally disturbed persons who have not, nor ever will obey the law!

More people are killed by cars than guns.

We do not need more laws that are a burden on the average citizen!

Sincerely

Mark Renaud
