

This bill as a whole is not only unconstitutional it is affront to reason. I am opposed to this legislation and can not even come close to letting you know how upset this makes me. I am a veteran and you trained me to be responsible with weapons. This bill is like outlawing sober drivers to protect the sober drivers from being killed by drunk drivers.

If you want to do something about crazy people, do something about our health care system and how we deal with those unfortunate people who are unable to think rationally. That is a definition of mental illness. Drugs are creating more people who lack the ability to make good, reasonable choices in life. Leaving mentally ill and drug abusers on the street is a crime that you are purporting on the citizens of Oregon. We know how to help those unfortunate people, but they can not function on their own, they will continue to make decisions that harm not only themselves, but others.

Please stop this crazy bill, it falls into the category of unhinged and will do your over all causes no good. This bill violates The US constitution, The Oregon constitution and all basis of civil society. "I prefer dangerous freedom over peaceful slavery." From letter by Thomas Jefferson to James Madison January 30, 1790.
