

Hello Committee,

It is time YOU stand up for my rights granted under the Constitution of these United State Stop infringing. What don't you understand? I tried to read all of this amendment and because I am not a lawyer all I see is you want to make me an outlaw. You should be requiring instead that ALL citizens arm themselves so the question becomes for the perp, "Do I really think I can get away with this?", because I know they may be able to defend themselves."

Sorry but the cops don't live on my doorstep or in my back pocket so protection/defense is my responsibility and I don't surrender that to you at any time!

Thanks.
