Senate Judiciary Committee

Oregon Legislature

Chair Porzanski and Members of the Judiciary Committee.

I am writing to you about SB 978. This bill will make anyone who has a CHL a law breaker if they go to any public building. That is unbelievable. Do you know any person who has an Oregon CHL has to go through an extensive back ground check? This bill and it's 44 page amendment is going after the wrong people, the honest law abiding ones. We won't even be able to have a gun on our night stand for protection at night. This is a very onerous bill and I urge you **NOT** to pass it out of committee as it will make 1 million gun owning Oregonians, your neighbors and constituents, law breakers at the stroke of the legislative pen.

A law abiding citizen and hope you keep it that way.
