

How does putting more restrictions and laws and regulations on law abiding, gun owning, concealed carry citizens going to solve gun violence? Can you cite one instance where a CCLH (Concealed Carry License Holder) shot up a mall or movie theater or library or school?

If you democrats continue to push these draconian firearm restrictions and continue to marginalize our Second Amendment Rights, there are going to be consequences. I will not give up my weapons or my magazines. I urge you to NOT make me an outlaw in my own state. Tread very carefully.
