Committee Members,

I have twice voted in favor of cougar protection in Oregon. I am writing to ask you to respect the will of the voters who have made it clear that we all want cougars protected from the cruel practices of hound hunting and baiting.

State and federal agents are currently allowed to hound cougars deemed a threat or problem -- they have the tools and resources they need.

It is high time that the hunting lobby stop trying to overturn the will of the voters...it is high time that elected officials permanently stop this affront to the laws that are in place due to twice being sent to the ballot and garnering the support of Oregon voters.

Please stop efforts to overturn Measure 18 - please protect cougars.

Sincerely,

Andrea Kozil
