

Greetings

In reference to the above bill , specifically to the "Dash 1" amendment.

Why is it that the laws you are trying to pass will only affect the lawful firearms owners.

The criminal element does not and will not care about any firearms law you pass.

Actually that is untrue. They will clap their hands with glee because they know that the lawful citizen is unarmed.

The lawmaker of the state of Oregon should focus on making sure enforcement of the laws already on the books takes place.

Punish the criminals not the law abiding citizens.
