Hello

this message is to let you know I oppose sb 978 . This bill was a study and now it is a gun grab turning law obeying gun owners in to criminals for someone else's disregard to law and morals. I would like to see a murder / gun thief held responsible for their own actions instead of responsible gun owners. It just makes no sense. That is only one of the issues with the bill I have. The underhanded way it was proposed and then the amendments were introduced is another. It is obvious you have no respect for the citizens you serve. I will not support anyone or any bill as illogical as this nonsense is.

Sincerely

Vince Heman
