

Gun registration and gun control are always followed by gun confiscation which is always followed by genocide and other government atrocities against disarmed populations. Gun grabbers are socialist tyrants who rule over the compliant, exterminate opponents, and enrich themselves. The last century is replete with the murder of millions of defenseless people by tyrannical socialist government entities (China, Soviet Union, Nazi Germany, North Korea, Cuba, et al).

Although the globalists at the top of the leftist political hierarchy know the real agenda is gun confiscation, the typical gun control advocate seems incapable of grasping that liberty has endured in America because of an armed citizenry constraining government tyranny while deterring criminal behavior. Driven by the UN Small Arms Treaty signed without Senate approval by Obama's Secretary of State John Kerry in September 2013, government at all levels is aggressively seeking to criminalize the right to keep and bear arms except by police and government agencies which have spent billions in the last few years on automatic weapons and hollow-point ammunition. That is the definition of a police state to which America is "progressing" through leftist gun control policy. Public safety is not the issue. The agenda is absolute power and control in the hands of government... tyranny. Gun grabbers seem oblivious that their unconstitutional "laws" will ultimately provoke civil war or revolution. Indeed, that may be the globalist objective per the mantra of the 19th Century Fabian socialist: "Out of chaos, order." Provoke civil unrest and anarchy, impose martial law, establish tyranny.

Every gun control law diminishes and defeats the purpose of owning a firearm and is thereby an unconstitutional restriction on the right to keep and bear arms. Despite protests to the contrary, the ultimate objective of gun control is gun confiscation which proponents of gun control obfuscate with incremental regulations and restrictions on guns, ammunition, and right to carry.

If gun control advocates were truly motivated by a genuine desire for safety in our communities and public places, they would halt sanctuary for illegal aliens which undermines respect for the rule of law and encourages crimes against citizens and their property. Armed citizens know that the same crowd that seeks to disarm them supports open borders and the invasion of our country by hordes of illegals. People "educated" by the state-controlled schools are unlikely to connect the two or comprehend the ramifications, but armed citizens know their rights and are not so easily duped.

The government indoctrination centers suppress the historical fact that disarmed people are enslaved and killed. Every tyrant in the 20th century registered firearms, confiscated them, and then proceeded to murder their political opposition by the millions. Since gun grabbing socialists in this country also embrace the slaughter of innocents (abortion-infanticide) right up to full-term birth, it is no stretch to assume they will not hesitate to kill a disarmed population that opposes them. The 100+ million people killed by socialist tyrants (Mao, Stalin, Hitler) in the 20th Century is a historical witness against any assertion to the contrary. Unconstitutional legislation and government tyranny are to be feared, not an armed citizenry.

Common sense should inform us that gun laws do not deter criminals but disarm law abiding citizens, exposing their lives and their property to serious harm. Mass gun killings - most of which are false flag events immediately followed by socialist demands for more gun control - always occur in "gun free" zones. Homicidal maniacs and rational people recognize these areas as prime targets, kill zones, because no viable resistance - with firearms anyway - is likely. Every mass gun killing undergirds the critical importance of armed citizens everywhere. In a free society police must not and cannot be omnipresent and are therefore no deterrent to mass murder. Only an armed citizenry can deter criminal activity and constrain government overreach.

Whenever legislation restricting a Constitutional right is considered, the Founders' intent must always prevail. Otherwise we have no Constitution and no rule of law, only the rule of men. To refresh you in that regard, below are quotations from several Founders on the individual right to keep and bear arms.

George Washington:

- *"The very atmosphere of firearms anywhere and everywhere restrains evil interference."*
- *"Firearms are second only to the Constitution in importance; they are the people's liberty teeth."*

Thomas Jefferson:

- *"What country can preserve its liberties if their rulers are not warned from time to time that their people preserve the spirit of resistance. Let them take arms."*
- *"The laws that forbid the carrying of arms are laws of such a nature. They disarm only those who are neither inclined nor determined to commit crimes.... Such laws make things worse for the assaulted and better for the assailants; they serve rather to encourage than to prevent homicides, for an unarmed man may be attacked with greater confidence than an armed man."*
- *"The Constitution of most of our states (and of the United States) assert that all power is inherent in the people; that they may exercise it by themselves; **that it is their right and duty to be at all times armed.**"*
- *"The most important reason for the right to bear arms is, as a last resort, a defense against tyranny in government."*

George Mason:

- *"To disarm the people...[i]s the most effectual way to enslave them."*

Noah Webster:

- *"Before a standing army can rule, the people must be disarmed; as they are in almost every kingdom of Europe. The supreme power in America cannot enforce unjust laws by the sword; because the whole body of the people are armed, and constitute a force*

superior to any bands of regular troops that can be, on any pretense, raised in the United States."

Patrick Henry:

- *"Guard with jealous attention the public liberty. Suspect everyone who approaches that jewel. Unfortunately, nothing will preserve it but downright force. Whenever you give up that force, you are ruined.... The great object is that every man be armed. Everyone who is able might have a gun."*

Samuel Adams:

- *"The Constitution shall never be construed to prevent the people of the United States who are peaceable citizens from keeping their own arms."*

Richard Henry Lee:

- *"A militia when properly formed are in fact the people themselves...and include, according to the past and general usage of the states, all men capable of bearing arms... "To preserve liberty, it is essential that the whole body of the people always possess arms, and be taught alike, especially when young, how to use them."*
