

This bill, if passed will punish law abiding gun owners will more strict regulation. There will not be enough funding to even enforce these new gun laws. Lastly, putting stricter laws on guns does nothing to criminals. Your law abiding citizens should not be the target. New laws will not prevent any issues that are caused by Criminals using guns. More money and time should be put into mental illness to try and stop misuse and guidances of firearms. I oppose SB 978. Thank you for taking the time to read my concerns.
