

Please vote YES! on SB 870

Every vote should count in an election. The National Popular Vote bill, SB 870, would make sure every vote, in every state, will matter in presidential elections. The National Popular Vote bill would make sure the presidency is given to the candidate who receives the most popular votes in all 50 states and D.C.

Right now, the concerns of all Oregon voters don't matter to presidential candidates because they know the winner-take-all system will award the electoral votes to the Democrat. As you probably know, presidential candidates campaign in only about 12 so called "battleground states". Oregon is not one of those states. Under a National Popular Vote Interstate Compact, all of Oregon's voters would matter in a presidential election.

Please address the inequity in our voting system that allows a handful of swing states to decide our presidential elections. Please vote yes on SB 870.

Thank you.
