

Halsey Swain (SB 926, SB 931 testimony)

Hi,

My name is Halsey, I'm a wildlife artist, fishermen, hunter, and lover of anything wild and free and natural, whether it's the ants on the sidewalk in the middle of the city or the mountain lions that I have come face to face with in the coastal cascades. I strongly support SB931 and SB926. Its crucial that these lands and water ways do not get over looked and impeded on anymore than they already are. We can't take these things for granted. No more spraying and living in the past. Our futures and this world are are in the crosshairs. Please support SB931 and SB926.

Thank you

-Halsey Swain
