I full support the tax credit child assistance program recently introduced by Oregon legislature. I am a single full time father currently enrolled in the aviation program at central Oregon community college. The flight labs alone to obtain certifications to fly can cost upwards of 20,000 dollars. As it is I have a hard enough time being a veteran supporting my 2 year old by myself. This tax credit could help countless students achieve all of their goals and be a productive member of society.
