

To the Members of the Committee:

Would I be expected to tell a home invasion robber to wait while I go to the gun safe in the basement? This represents is the absurdity of HB 2505. Living as isolated as I do, I don't want to be endangered because of the ideologues in the state legislature. I also resent that like nearly every bill coming from the Democrat majority, this one has an emergency clause. This shows how much distrust and resentment the Democrats feel toward the citizens they allegedly represent. You might as well just outlaw the citizen referendum altogether and show your true colors.

As for the outcome of HB 2505, you must be aware that with the Democrats' monolithic advocacy of illegal aliens, they have lost the moral authority to expect the rest of us to obey the law. The majority has rendered it optional, and you will reap the unlawfulness that you created.

Sincerely,
Lyneil Vandermolen
