

I do realize that somehow the once Great State of Oregon has become a communistic minded strong hold, and that my voice does not matter. However I will state the obvious. Any Gun control legislation is an violation, I don't see people adding Speech control to the pot and stirring that up. Since I believe that our Freedoms hinge on the fact that the PEOPLE are to keep the government in check, I must conclude that Government is out of control. Also maybe you realize that Oregonians will start moving out of state, which means loss of tax dollars. Here is something for anyone that is an American, FREE at birth to ponder, It is ILLEGAL to pass into law anything that trespasses against the Federal or State Constitution! And WE the people are within our legal rights to defend our rights. Please consider these things Respectfully, Mike Wilson
