##### **BACKGROUND:**

According to the Oregon Health Authority, suicide was the second leading cause of death among 10 to 24 year olds in Oregon in 2016. There were 97 youth suicides in 2014. House Bill 4124, passed in 2014, mandated a five-year Youth Suicide Intervention and Prevention Plan and created the position of Youth Suicide Intervention and Prevention Coordinator within OHA. Senate Bill 707 establishes a Youth Suicide Intervention and Prevention Advisory Committee to coordinate with the Youth Suicide Intervention and Prevention Coordinator and make recommendations to OHA for administrative and legislative changes necessary to address service gaps in youth suicide prevention, intervention, and post-suicide activities. The measure directs OHA to provide staffing and appoint 17 members that reflect cultural, linguistic, geographic, and economic diversity.
