

Senator and committee chair Mr. Prozanski and committee members

My family and I are against this bill:

1. It contradicts itself in various places.
2. It does nothing to a the criminal, but makes criminals of normal citizens.
3. If CHL holders were not allowed to carry in various places the Clackamas Town Center Shooting would've been many times more terrible.
4. As stated in a decision of 3-29-2019 mass shootings are " exceedingly rare" compared to the hundreds of assaults, robberies, rapes, home invasions, that occur daily across the U.S.
So, by reducing the areas of CHL holders allowed to carry you are increasing the chances of violence to citizens . Unless that is the goal.
5. So, we can also assume that Section 1 is to allow a business like Wal-Mart or DICKS to by-pass federal law. on a political whim.

So, please stop this attack on Oregonians and keep socialist out of our business.

respectfully
