

Honorable Committee Members,

How on earth did we get to this point? Why are law-abiding citizens being targeted with legislation that restricts or takes away many of our freedoms, and makes us criminals for failing to do something that in all likelihood will not solve the problems that some people think it will?

When will the gun control advocates realize that restricting our rights as citizens does not address the fact that criminals will ignore these laws anyway?

I was born and raised in Oregon, but I will give serious consideration to leaving if this bill passes. I will also help the NRA and any future groups or individuals who take the State of Oregon to court in contesting the legality of this bill, if passed and signed into law.

Respectfully,

Dan Linscheid
Salem, OR 97317
