

As an owner and user of firearms for hunting, shooting sports and personal protection I am outraged by this attempt to strip us of our constitutional right to keep and bear arms. SB 978 would do nothing to prevent violence in our state. What it's all about is absolute control of the citizens of Oregon and making criminals out of law abiding gun owners. I have always been pro law enforcement but that is not what this is. It's a vile attempt to strip us of our rights and totally control every aspect of our lives. Just the sort of thing we fought against in WWII. Think about this very carefully, it's not good for Oregon. Lee Eubanks
