

As a lifelong citizen of Oregon I appeal to all Oregon legislators to think of the consequences of passing SB978. This bill stands the risk of making criminals out of many Oregon citizens and will have little to no effect on gun violence. Please ask yourself if this law would have prevented any of the school or church massacres over the past several years. I believe if you are honest with yourselves your answer will be no. Although this bill will have the effect on some to make us "feel good" thinking we are doing our part to curb gun violence, the reality is it accomplishes absolutely nothing.

Thank you for this opportunity to voice my opinion
