

Let me see if I have this right...You want to flood the country with terrorists and MS 13 and take away my right to defend myself my children my family and the innocent as well as to violate our constitution while making Americans felons in their own country in the name of security....Does that about sum it up?

I'm sorry but my family dates back to 1845 in Oregon and 1630 in America.... You are the felons for violating our rights and you threaten a civil war with your criminality....

Please either vote no on these outrageous bills or return to where you came from,

Thank you, Martin Stewart
