Our rights as US Citizens should NOT be up for negotiation. This bill is dangerous and will serve to do nothing more than harm law abiding and good people of our great state and will do nothing to curb or prevent violence.

Violence and however it is carried out is only a symptom of a larger issue. These bills only serve as a simple half-assed measure that will not help at all. If you wish to curb violence and save lives tackle mental health first as it is the real problem plaguing our great state and nation and stop hurting your good law abiding citizens.

Sincerely:
