

SB 978

Senators of the Judiciary Committee,

The US and Oregon Constitutions guarantees all American citizens the right to have and bear arms. The Oregon State Bar affirmed those rights when it published The Bill of Rights, The First Ten Amendments To The Constitution of The United States. This bill is infringing on our rights.

The Oregon Volunteers were formed in 1843, before The Oregon Territory became a State. The Oregon Volunteers, also known as the Oregon Rifles, fought in the Cayuse Indian War in 1847. The Oregon Volunteers used their own rifles, the best they could afford, their lives depended on a trusty fire arm.

Oregon Volunteers today also own the best rifles and hand guns they can afford, their lives depend on them. Oregon Volunteers believe in total gun control, and they control the guns. Oregon Government thinks it knows how to protect the Oregon Citizens. We hear, if it will save one life, it is worth it. This bill will kill more people than it will save. The Oregon Legislators will have more blood on their hands.

How Is that Sanctuary City and State thing working out? How many American lives have been taken by an Illegal Alien? How many children have been raped or killed by an Illegal Alien? How many illegal drugs are brought into Oregon by an illegal alien? Will all of that be corrected by giving a drivers license to an Illegal Alien? How will that save lives of Oregonians? Oregonians will keep their guns to protect themselves and their families against Illegal Aliens and the Drug Cartel.

This bill is not about gun control, it's about people control. Democrats are hypocrites: There is no Emergency on the border, when there is one. This bill needs an Emergency Clause, when there is no Emergency. When the Government tries to take away the guns, it's the peoples duty to take away the governments right to govern.

Kate Brown colluded with Michael Bloomberg and got \$250,000. He was interfering with Oregon elections and now we see Michael's Mothers wearing red shirts in these hearings. When the Redcoats tried to take the guns from our forefathers, they were shot. Oregonians will push back against these draconian laws. I can hardly wait to see how many people leave the Democrat Party the way they are being treated. The Democrat Crime Family is out to rob them blind.

There has been a lot of talk about the sexual misconduct going on in the Capitol. I told a friend that the Legislature was going to have an orgy with the tax payers this session. It looks like I was right.

Dave Hopfer
