

To whom it may concern,

My name is Sam Masters. I am the Marketing Manager and Head Coach for Wy'east Wolfpack in Portland Oregon. We are spearheading mental health and outdoor programs in the Portland area utilizing our trail systems and public parks as a place for emotional and physical growth.

We stand behind this bill as it provides grants to help move programs in the right direction with health care, showcasing the value the outdoors has on mental health. It will also allow underserved communities to benefit from these services as they become free or affordable.

This bill is the start of change that we need as a state and to be the leader of health care for all. Wy'east Wolfpack will most certainly play a role to show that the contents of this bill provides an exceptional service to those in need in the state of Oregon.

Thank you!

Sam
