

To whom it may concern.

I'm writing you today to Express by email my deepest concerns about the SB 978.

I would like to Express that I'm opposed to this bill

And I have to ask why is this bill attacking law abiding citizens?

Why sweeping restrictions?

Why are you not addressing the real problems?

And making allowances to turn countless thousands of us into felons?

Never once is the criminals even affected by any gun laws.

I don't feel that we who strongly believe in

the second amendment have any representation in any part of the Oregon house or Senate.

Nor are we even considered in any way shape or form.

Only those of who commit no crimes.

I wish I could be there to testify before you today.

But like most I have to work.
