

I am a 33 year veteran of Oregon law enforcement. Most of which was with the Oregon State Police. I also want the plague of illegal or ignorant use of firearms reduced.

However it is also quite obvious that the wrong people are being blamed for it. The real problem is the super violent movies, video games and television. Also the moral breakdown and breakup of the family unit. It also encompasses the proliferation of gangs in our society.

It is not the law abiding gun owners and honorably retired police officers in Oregon or in the Nation.

Thank you for rethinking this issue. Jerry Hupp
