Importance: High

After reading SB 978 I feel that it negatively impacts 2nd amendment rights. There are too many if, ands or buts in how this is written and also it is written to make an individual to work on the honor system until something bad happens. Meaning we will not be having inspections in our homes, cars, cabins etc. to make sure we follow the law. Everything here is written in a way to make gun ownership difficult for the many law abiding citizens and does nothing toward NON law abiding citizens. Please take a look at the big picture and how this bill will NOT affect anyone who DOES NOT have regard for the law, themselves or others. How do all of these additional items help stop problems? IT DOESNT, the majority of people who own guns already keep them out of the hands of unlawful people and teach those around them proper care and use of gun ownership. MAKE LAWS THAT STOP CRIME, NOT LAWS THAT STOP OR HINDER LAW ABIDING CITIZENS.

Thank you for listening before acting.
