

No on SB-978

To the Oregon State Legislature,

I am a Lifetime Oregonian, full time employed, college graduate, and proud to be an American. I am also appalled in the directions this state has moved towards especially after the Kitzhaber debacle. After decades of California implants we have suddenly been swung in a radical left liberalism where illegal aliens are not recognized as such, people can defecate on a door fronts, second amendment rights are whittled away under pretense of public safety and "common sense gun safety measure" that can never be satisfied until a total ban is achieved.

I fully support the second amendment. My right to defend myself and others, and if necessary, stand against the government itself.

I will not support nor obey the unconstitutional rule of law. Oregon, as the nation, does not have a gun control problem, that is an agenda. Our laws ought not to be written to restrict the rights of law abiding citizens because of what a few criminals and crazy people do.

I will keep a gun within reach, it will not be locked away. If government thinks the threat of a criminal stealing a gun is a problem, then make that crime a mandatory lifetime sentence. Should a criminal enter my house, I should absolutely not viewed as a criminal for their criminal intent, that's common sense.

The Democratic Party is broken right now, I am very concerned for Oregon. Where backdoor dealings are common, "Emergency Measures" is used to prevent a public vote and public oversight. Disgusting...

No on SB-978.
