

To the legislators Prozanski, Thatcher, Bentz, Fagan, Gelser, Lithicum, and Manning

I see that the Oregon Democrats are again trying to overstep the United States Constitution specifically the Second Amendment.

I believe the thinking behind this bill is being done maliciously to all Oregonians who are law abiding gun owners and are only rewarding the law breakers.

I live in a rural community and since a young age have been taught proper gun safety along with usage and feel that the bills being proposed should be put to a statewide vote at a minimum as I believe that it would surely fail to garner the support you believe it will get as I have many liberal and conservative friends alike and all believe in there second amendment rights and should not be punished due to a few who have had issues with mental stability.

I challenge you as I said above, if you truly believe, to put this to a vote to the people instead of ruling as if you do not serve We the People.
