Hello:

I'm contacting you with my thoughts on SB 978 and other anti-gun / gun control bills in process.

I have read all the documentation available for many of these proposes bills, including but not limited to. SB 978, HB 2505, HB 3223, HB 3265 and SB 501 to name a few. Although I've read that SB 501 is pretty much DOA.

Again, there is nothing in any of these that are aimed to stop any criminal, or to protect life. They are targeting the law-abiding citizen, destroying our rights and putting us in danger by limiting what we can own, and how we can use them to defend ourselves and our families.

Like I've stated before, there is no law that can be passed, that will stop the criminal, terrorist, or mad man from attempting to carry out their deed. In fact, they want these horrid bills to pass, because it makes it easier for them by making us, the citizens, more vulnerable.

To require us to lock up our home defense weapons, puts us at risk. To limit what type of firearm we can own, puts us at risk. To tell us we can only have a small about of ammunition, puts us at risk. To expand the gun free zones and put more restrictions on where we can carry concealed, puts us at risk. And the list goes on. Simply stated no law put on the law-abiding, will ever stop the criminal. They target gun free zones, they will still have their AR, with a 30-round magazine, when they kick in your door, or storm into a movie theater etc. They don't care what the law says.

"Making the innocent helpless, will not make the guilty harmless"

And one proposed bill seems to be worse than most SB 978, mainly because the way it's written, any number of "amendments" could be added without normal procedure if passed. Potentially stripping us of our rights and freedoms as

Americans. So, I implore you to not support any of these bills, or any like bills that may come up. Your job is to try and protect people, and our rights, but bills like above, do nothing but endanger us.

Thank you for your time and have a great day.

Jim Evans
