

Folks tomorrow you will be sitting down to consider SB 978 and after that a number of other bills that all want to limit my 2nd amendment right to own, carry and shoot firearms. These guns have all been purchased and owned legally by me for a number of years and you will not turn me into a criminal for having them. You might want to consider the fact that over the last few years that there has been over 38 million hunters each year in the USA and over 350,000 here in Oregon without any mass or illegal shootings. If you are really concerned about shootings, enforce the laws that we currently have on the books, incarcerate criminals for the maximum time, put people in mental hospitals that are crazy and do what the citizens of Oregon have approved over the years, execute the bad guys! What you must NOT do is to make criminals out of law abiding citizens.
