

HB 2013

VOTE NO

Rebecca Roth

Pastor Martin Luther King Jr applied for a permit to be able to carry a gun while he went about peacefully organizing civil rights activities for black people oppressed by the Southern Democrat Jim Crow laws. He was denied a permit based on his skin color, and therefore was defenseless when a gun man shot him. Not one person in his group had a gun to defend his life from the man who was sent to kill him.

Law-abiding black people DENIED BY JIM CROW LAW the right to carry a gun, just like Pastor Martin Luther King Jr, were defenseless when attacked. Many were lynched for supposedly THINKING about crimes. Democrats are leading us to this same situation...we can be attacked for supposedly THINKING about criminal thoughts and there are thugs the Democrats have not taken off the streets who are organized to attack for the supposed crime. Mr. Strickland was attacked by such a mob and unholstered his gun to get them to back off. Though he did not fire his gun, the mob backed off. The action is now being prosecuted. This is sheer craziness...and is the same pattern as the Jim Crow laws created—leaving individuals defenseless against a mob.

Large numbers of generally black people, killed in Democrat run cities around America where guns are prohibited. Rioting, mobs and fire are used, along with illegally acquired guns—and then MONEY FOR POLICE IS CUT.

Margaret Sanger's "Negro Project," idea was to raise up black people to kill black people, with white people in positions of media and government creating the conditions in which the goals of the KKK would be fulfilled, but without white people going to prison.

When Hillary received the Sanger Award, she said she admired Sanger's VISION, and this concerns me, as Sanger was a racist. Her DIARY reveals many statements like this, "Blacks are like weeds, they need to be exterminated." So, wherever guns are restricted, the number of people murdered increases, but black people are especially affected. When Democrats support gun control, it appears that the members of the Democrat KKK are pushing and giving money to others to buy votes to create the Jim Crow laws again. Be careful of the KKK. They work in secret to achieve their goals. Mr. Bloomberg's money is anti-American.
