

Please vote NO on this Bill. There are many issues that should be addressed. Forty four pages with several areas that could be stand alone Bills on their own. I am sure they will be listed by others familiar with the process.

Haste will produce lawsuits with protests about procedures and use of extreme measures that are being used outside the intent of the Rule.(ie the emergency clause) Rigging a Law to circumvent normal remedies will weaken the respect for the system.

Thank You
James Bryant
