Re: I DO NOT SUPPORT: [HB 2003]: VOTE NO on [HB 2003]!

[HB 2003] should be tossed into the "dust-bin" with extreme prejudice and for all eternity.

[HB 2003] is thirty(30) pages long, festooned with some of the most nebulous requirements on cities with reference record keeping of ever changing population densities (to start with). Have you even bothered to take the time to read this crap?

[HB 2003] does not have; a Fiscal Impact Statement, Revenue Statement, and or Budget Report and for good reasons-it would have been quashed before the ink was dry on the paper it was written on.

There are NO cost estimates of any kind, period. That speaks very loudly that **[HB 2003]** is going to be at least a fiscal nightmare. Other associated and ancillary nightmares are sure to follow.

The sheer magnitude of required "record keeping" and punishments for non-compliance is reminiscent of the techniques used by the Gestapo in acquiring information not seen since the days of Nazi Germany.

Tell the "She-wolves" of the Housing-Gauleiters, I don't want tax money spent on any part of [HB 2003].

Respectfully submitted,
