I'm writing today because our representatives of the people REFUSE to listen to the people and continuously overstep their reach. You want to blame and punish law abiding citizens and free the criminals and their behavior. But that's all the plan isn't it. Enslave and victimize the law abiding citizens and let the criminals run rampant. As a law abiding citizen, Native American, Female and Lesbian, anyone voting Yes on this bill or any other anti gun bill, DO NOT represent me! You represent the ones who stuff your bank accounts. I find it disgraceful that we're even here to talk about such toiletry and I find it appalling that the people who do not live in my community, my county or even my state have a say so on what goes on here. Its common knowledge that the anti gun, zombie deadheads bus people in to give testimony. What's astonishing is you all give them more credit then the folks who actually live here. We have over 22,000 gun laws on the books now, and all they do is restrict the law abiding citizen.. Criminals are criminals because they don't follow laws, so more anti gun laws are only going to restrict the law followers... I know you are smart people and can see this. Therefore is makes me question what this is really about! Like I said earlier, I am Native American, and no matter how much of history you all try and erase and act like it didn't happen, We the people remember what happens when the people give up their right to bear arms. And I am here to tell you not one more law, not one more inch, nor one more infringement will I comply.
