---

Senators,

This bill as with all bills related to restricting access to firearms of any kind for legal citizens is not only illegal according to the US constitution but is nearly totally unenforceable. Many of our county sheriffs have said they would not enforce any gun bill that goes against the US constitution. Besides any bill that makes it harder for legal citizens to own a gun for their protection or for sport just makes Oregon a more dangerous place because the criminals will never give up their guns. As an example of that just look at the statistics from New York City or Detroit or Chicago all with the most regulated gun laws in the country. Their gun crime is also the highest in the nation.

Thank you,

James Morton
