

I support HB 2013. I hope this bill passes to help protect families, especially the spouses and kids of domestic abusers. For the most part, those hurt or killed by abusers with guns are the women and children-and the pets-of these men. While it is against the law for abusers to have a firearm, there is no way to ensure that the families at least have a chance. We have all seen so much news about the innocents murdered-please give Oregonians at least a chance to have a safe happy life and protect them against gun violence.

Please pass HB2013

Thank you
