**Subject:** Aerial spraying

Dear Senate Committee Members,

I can't come to the Public Hearing but please do everything you can to stop the arial spraying which is making our children sick in rural communities near forest land. SB 926 and SB 931 are important bills for everyone's health.

As you know, thousands of us signed the petition to get this issue on the ballot in the last election because it is an urgent issue, and it was not allowed to come to the voters, because someone ruled that the petition addressed 2 different issues. A technicality which was deeply disappointing to many of us who worked so hard to protect our health.

Thank you,

Jeri Anne Hampton
