Subject: Support for SB 931 Forest Activity Electronic Reporting and Notification System

To: Senate Environment and Natural Resources Committee

Chair Dembrow and Members of the Committee,

I urge you to pass SB 931 so that Oregonians living and working near industrial timber plantations will have adequate notice of aerial herbicide spraying. Our state's residents need and deserve to know when herbicides are being applied nearby, as well as the kind and the method of application with sufficient time to ensure protection of their families, pets and livestock from dangerous chemicals.

Thank you for the opportunity to comment on this bill,
Laurie Dougherty
