

Dear representatives and senators,

This bill is a travesty for law-abiding citizens and anyone who calls themselves an American.

This bill should not be considered, let alone voted into law.

It's inherently opposed to the Constitution of the United States of America.

If we do not understand or learn history we are doomed to repeat it. All one has to do is look at every Empire, or nation state which has outlawed, or taken the ability of the populace to defend themselves, to see what has happened historically. In the vast majority of these instances crime has increased, especially that perpetrated by governments against other governments or against their own population. Vote with conscience, vote according to the law of the land.

Sincerely,

Dan
