

As a citizen of the state of Oregon I urge you to stop this bill. This bill is an attack on the most law abiding segment of the population. As owners of firearms we have back ground checks done whenever we purchase a firearm. As someone with a concealed carry permit we voluntarily submit to a back ground check every four years. This bill is quite simply an attack on an innocent group of people by our elected representatives. I request you stop this over reach of government. With this bill you are going to make the most responsible law abiding segment of the population into criminals for no reason except political opinion.

Randy Maine
