

Dear Oregon Senators,

As rural Oregonians I'm writing to you to vote YES! For the National Popular Vote, The National Popular Vote Interstate Compact. We want to elect our President in the general election with everyone's vote counting. The NPV Interstate Compact assures that votes in ALL 50 states count, not just the votes in the swing states, those divided battleground states that in the 2016 general election received 94% of the Presidential campaign events and visits. Presidential candidates need to campaign actively in all 50 states. It's time for the "winner takes all" laws to be set aside.

Let's have Oregon join Delaware and Colorado this year in signing the NPV compact. It's the Oregon legislature's job, and the time is now.

Thank you for voting YES!
