

I Matthew Snook am opposed to SB978 in every way. There is nothing redeemable about this and it horrifying how unconstitutional it is. There have been many times in my life where I have been put into a situation where I felt the need to defend myself or my family and property. Thankfully I have never had to fire my pistol. In every case so far the situations were resolved without bloodshed. Make no mistake I would without a doubt defend my family my friends and my freedom by any mean necessary. We all including you should maintain and have that right. You are going about this the wrong way. Expand our freedoms support them cultivate them. Bring back firearms safety classes in school teach a healthy respect for them. Do something like the castle law in Texas. Defend your family and friends life and property by any means. Criminals will get the hint. Enforce the laws already in place. The vast majority of us gun owners are the actual good guys and you wNt to make criminals out of us. We will not comply we will not be criminalized. God bless America and you too.

Thank you
