

Most of the people that oppose this bill and would love to speak on it at the meeting cannot attend because they have jobs and pay you MORONS salary. This bill would do nothing to help keep US safer in any way. It would just turn a million or so otherwise law abiding TAX PAYERS into instant criminals. This is just the Dumocrat party going after our guns one piece at a time. All you will accomplish is another civil war. Remember what happened way back in 1776, when the king of England came for our guns. Oh I forgot, Dumocrats don't teach history anymore. The first thing Hitler did was impose gun registration in the name of public safety. When he knew where and who had them then, well you know the rest of the story. I forgot, Dumocrats don't believe in history. The 2<sup>nd</sup> amendment was put in the constitution to protect US from tyranny, like this. So, it's not about gun control, it's just about control.
