

I would like to weigh in on this Unconstitutional Bill, A well regulated Militia, being necessary to the security of a free State, the right of the people to keep and bear Arms, shall not be infringed.

This bill infringes on my god given right to protect myself. And does nothing to prevent real crime.

All these ridiculous bills do is criminalize the law abiding citizens.

As law makers you took an oath to protect the Constitution.

Not to interpret it for your agenda.

To criminals people to exercise there rights is wrong and many of the proposals do away with due process !

I say Nay to these and will do everything possible to spread the word to vote all responsible for backing these laws out of office.

Again it's not a gun problem it's a people problem.

No gun has ever killed anyone, people kill people not inanimate objects.

It's like banning a fork because it causes obesity.

Sincerely

Richard Murphy
